My Dear Melissa, Please forgive my delay to your last most welcome letter, But I have been sunning about a lot and of course while out drinking of the demon fire water, and so neglecting my correspondents.

I'm pleased to know you are in London area, does it appear that you have more occult contacts in ~~the~~ Sothern areas, my WICA initiated ^{contacts} were spread all ~~over~~ over U.K. but London always was contact center for all the occult paths, let me know if you make contacts in Museum (British) and Cecil Walkin's Book shop, and area.

Yes as far as I recall his did change her surname but what it was is out of mind now.

Done

Perhaps I'd better forget all the past, and now that I have my tools etc get working again, first I shall have to get myself in as good a state as possible and get a compatible Partner H.P.S. and working circle going, but methinks getting a partner is going to be very difficult indeed, lets see what the golden wheel turns up.

Melissa please take all you heart that is not compatible to what I have already told you with a few tons of Salt. This tam is a 100% chromium plated liar, there never was such a thing as whitecraft

They did not come from Gardnerian, could be of course Carrell or Alexander. There were past contacts of mine and G.B.S. in Australia ^{only} one he worked in Sydney ^{he left Lond area 60-62} but his name was not Fred or Robert. Did I not tell you about him and Dean Heis H15. I forget exact times for my initiate Screen Valentin and Maryt Bruce etc will probably have a net of this as will Karl Wedde or near enough.

Its a pity about this chap Matheson but

3
it looks like he has ³fixed your Brain for all he wanted. Lets hope gets in touch again.

I flew over to 9.00am. to get all my degrees etc and then as B.B. Passed contacts to me I met him and he came to Saltcoats etc. Only once did J. B. initiate a HPS and get a cover gain it was in Lanarkshire once I get into practice again I'll contact them and others I cant name of course. But I think I told you of 1 or 2.

The envelope that had the letter was posted 1 or 2 days before L.P.s. Passing. But Karla will not say what happened to the letter, she has also held on to a few of my alt tools sword etc.

Melissa I love you for all this questioning you are making sure that the REAL WICCA History will be known for this I am eternally grateful to you and I will make sure all my tools book of shadows etc go to you when I too make the transition, and I will get all correct dates eventually. But when I do go you can be sure that a lot or at least 1 or 2

So called WICCANS etc will publish dates that
will tell you of people I forgot as at one time I
had over 100 letters per week. But very few
were genuine WICA initiates, even my son
elis'cain forgets a lot of dates etc. But letters
always turn up after a death, when I go then
you will be surprised who will come forward
with documents. etc.

Thank you for phone call and letter.

Till we meet again. Love and Best Wishes.

Yours in the S³
